

RFP 01

Smart Hospital Management System

RFP Number

MOH-RFP-2026-001

Issuing Organization

Ministry of Health (MOH)

Issue Date

May 2026

Proposal Submission Deadline

15 June 2026

1. Executive Summary

The Ministry of Health (MOH) invites qualified vendors to submit proposals for the implementation of a Smart Hospital Management System.

The objective of this project is to establish a centralized healthcare management platform that improves patient care, automates hospital operations, enhances medical workflows, and provides advanced reporting and analytics capabilities.

The selected vendor shall provide implementation, integration, training, deployment, and support services.

2. Background

Healthcare organizations currently operate multiple disconnected systems across patient registration, appointments, billing, pharmacy, and clinical services.

Current challenges include:

- Manual administrative processes
- Long patient waiting times

- Limited reporting capabilities
- Fragmented patient information
- Inefficient appointment management
- Lack of operational visibility

The Ministry seeks a unified healthcare platform that improves operational efficiency and patient experience.

3. Project Objectives

Business Objectives

- Improve patient satisfaction.
- Improve healthcare service quality.
- Reduce operational costs.
- Improve resource utilization.

Operational Objectives

- Automate hospital workflows.
- Improve appointment scheduling.
- Improve patient record management.
- Enhance operational visibility.

Strategic Objectives

- Support healthcare digital transformation.
 - Improve data-driven decision-making.
 - Enable future AI healthcare initiatives.
 - Improve healthcare governance.
-

4. Scope of Work

4.1 Patient Management

The platform shall provide:

- Patient Registration
- Electronic Medical Records (EMR)
- Patient History Management
- Patient Portal
- Insurance Information Management

4.2 Appointment Management

The solution shall support:

- Appointment Scheduling
- Doctor Availability Management
- Appointment Reminders
- Online Booking
- Waiting List Management

4.3 Clinical Management

The platform shall provide:

- Clinical Documentation
- Treatment Plans
- Diagnosis Management
- Laboratory Integration
- Radiology Integration

4.4 Pharmacy Management

The solution shall support:

- Medication Management
- Prescription Processing
- Inventory Tracking
- Drug Interaction Alerts

4.5 Billing & Financial Management

The platform shall provide:

- Billing Management
 - Insurance Claims Processing
 - Payment Tracking
 - Financial Reporting
-

4.6 Reporting & Analytics

The solution shall support:

- Executive Dashboards
 - Operational Reports
 - KPI Monitoring
 - Healthcare Analytics
 - Regulatory Reporting
-

5. Technical Requirements

Platform Requirements

The solution shall be:

- Cloud Enabled
 - Highly Available
 - API Enabled
 - Mobile Accessible
 - Scalable
-

Integration Requirements

The platform shall integrate with:

- Laboratory Information Systems
 - Radiology Systems
 - Insurance Providers
 - Government Health Platforms
 - SMS Services
-

Security Requirements

The solution shall support:

- Multi-Factor Authentication (MFA)
- Role-Based Access Control (RBAC)
- Audit Logging
- Data Encryption
- Privacy Controls

6. Non-Functional Requirements

Availability

99.95% Availability

Scalability

Support Multiple Hospitals

Performance

Real-Time Access to Patient Information

Reliability

Disaster Recovery Support

7. Deliverables

1. Hospital Management Platform
 2. Patient Portal
 3. Mobile Application
 4. Analytics Dashboard
 5. Integration Services
 6. Documentation
 7. Training Materials
-

8. Project Timeline

Phase	Duration
Assessment	1 Month
Design	1 Month
Development	4 Months
Integration	2 Months
Testing	1 Month
Deployment	1 Month

Total Duration: 10 Months

9. Vendor Qualifications

- Minimum 5 years healthcare IT experience
 - Hospital system implementation experience
 - Certified healthcare technology specialists
 - Government project experience
-

10. Financial Requirements

Estimated Budget:

SAR 4,500,000

11. Evaluation Criteria

Criteria	Weight
Technical Proposal	50%
Healthcare Experience	20%
Team Qualifications	10%
Financial Proposal	20%
