

Technical Proposal 01

Smart Hospital Management System

Submitted By

HealthTech Solutions

Proposal Reference

HTS-PRO-2026-001

Submission Date

June 2026

1. Executive Summary

HealthTech Solutions is pleased to submit this proposal for the implementation of the Smart Hospital Management System.

Our proposed solution provides a centralized healthcare platform that streamlines patient management, clinical workflows, pharmacy operations, billing processes, and reporting functions.

The platform is designed to improve healthcare service delivery, operational efficiency, and patient experience.

2. Proposed Solution

Patient Management Module

Features:

- Patient Registration
 - Electronic Medical Records
 - Patient History Management
 - Patient Portal
-

Appointment Management Module

Features:

- Appointment Scheduling
 - Online Booking
 - Appointment Reminders
 - Doctor Availability Tracking
-

Clinical Management Module

Features:

- Clinical Documentation
 - Treatment Plans
 - Diagnosis Management
 - Laboratory Integration
-

Pharmacy Management Module

Features:

- Medication Management
 - Prescription Processing
 - Inventory Tracking
-

Reporting & Analytics Module

Features:

- Executive Dashboards
 - Operational Reporting
 - KPI Monitoring
 - Healthcare Analytics
-

3. Technical Architecture

Presentation Layer

- Web Portal
 - Administrative Dashboard
 - Patient Portal
-

Application Layer

- .NET Core Services
 - Business Logic Services
 - Workflow Engine
-

Database Layer

- Microsoft SQL Server
-

Cloud Infrastructure

- Microsoft Azure
-

4. Security Framework

Access Management

- Role-Based Access Control (RBAC)

Data Security

- Encryption at Rest
- Encryption in Transit

Monitoring

- Audit Logging
 - Activity Monitoring
-

5. Project Team

Role	Count
Project Manager	1
Solution Architect	1
Healthcare Consultant	2
Developers	4
QA Engineer	1

Total Team Size: 9 Resources

6. Financial Proposal

Item	Cost (SAR)
Assessment & Design	600,000
Platform Development	2,000,000
Integrations	900,000
Testing	300,000
Training & Support	500,000

Total Project Cost

SAR 4,300,000

7. Warranty & Support

12 Months Support Including:

- Technical Support
 - Platform Monitoring
 - Bug Fixes
 - Performance Optimization
-

8. Conclusion

HealthTech Solutions is committed to delivering a secure, scalable, and modern healthcare platform that improves patient care, enhances operational efficiency, and supports the Ministry's healthcare digital transformation initiatives.

We appreciate the opportunity to submit this proposal and look forward to a successful partnership with the Ministry of Health.
